PROFILE

As an experienced software developer with over two years in web development, I bring proficiency in Java,, HTML/CSS, and JavaScript, coupled with a strong problem-solving acumen honed through Agile methodologies. My career has been marked by significant achievements, including being recognized with the Best Project Award for developing a mobile app that drove a 30% increase in user engagement. With a keen eye for detail and a track record of delivering high-quality code within tight deadlines, I am motivated to contribute to innovative projects in software engineering. My career objective is to secure a challenging role where I can leverage my technical skills to drive impactful solutions and continue to grow as a professional.

Skills

- Flutter and iOS App Development
- Frontend Web Development: HTML, CSS, JavaScript, React.js
- Backend Development: Java Spring Boot
- Databases: SQL, MongoDB

Certifications:

- E-Summit Ideathon: Certificate Link
- Data Structures and Algorithms: Certificate Link
- Hacktoberfest 2023 Tree Plantation: Certificate Link
- Swift iOS Development: Certificate Link

Projects:

- Silent Speak - Morse Code Converter and Games App
- Description: Silent Speak is a versatile mobile application developed using Flutter. Its primary functionality is to convert text input from 28 languages into Morse code. This feature is particularly useful for individuals who cannot speak and need an alternative means of communication. Additionally, the app includes interactive games such as Tic Tac Toe, Rock Paper Scissors, and Flip Card, providing entertainment and engagement for users. Link: Silent Speak Project
- EMI Calculator - Flutter App
- Description: Created a simple EMI (Equated Monthly Installment) calculator mobile application using Flutter. Users can input loan amount, interest rate, and tenure to calculate their monthly installments. Link: EMI Calculator Project
- Men's Care App - iOS Swift App
- Description: Developed an iOS application for men's care products including hair care, face products, and perfumes. The app provides a convenient platform for users to browse and purchase essential products for their grooming needs. Link: Men's Care App Project

Achievements:

- Winner, Ideathon, E-Summit organized by SOA and Government of Odisha
- Participant, BrainBunker Exhibition, SOA Proxima
- Winner, Hacktoberfest 2023
